

Liquid Rubber Industries

Liquid Rubber

Innovators in environmentally safe protective coatings

Project:	Salt Water Aquarium
Client/End User:	James Cook University
Engineer/Architect:	James Cook University
Project Size:	180 m ²
Completion Date:	November 2004
System Used:	Liquid Rubber Vezzlar™

Job Description:

Liquid Rubber Vezzlar™ was applied as the tanking membrane to protect the concrete from salt water.

Liquid Rubber Vezzlar™ has been top-coated with a specialized grey acrylic coating suitable for water immersion.

The 360,000 litre tank was previously coated with a chlorinated rubber coating that did not provide the service life required from the client.

The tank is now well protected and will provide a long maintenance free service life
